

CLAIMS

I claim:

~~ENSA3~~

1. A method of painting on a work surface using the posterior of an infant, said method comprising the acts of:
 - preparing a protective covering on the work surface;
 - preparing the background media by placing it on said protective covering on the work surface;
 - placing a reservoir on said protective covering;
 - filling the reservoir with a paint;
 - dipping the posterior of the infant in said paint; and
 - stamping the posterior on said background media to create stamping prints.
2. A method as defined in claim 1, wherein:
said dipping and said stamping steps are repeated in sequence.
3. A method as defined in claim 1, further comprising the act of:
spraying a fixative agent on said background material to set said stamping prints.
4. A method as defined in claim 2, further comprising the act of:
spraying a fixative agent on said background material to set said stamping prints.
5. A method as defined in claim 1, wherein said filling step further comprises:
filling said reservoir with paint to a depth of between 1/16th of an inch to 1/8th of an inch.
6. A method as defined in claim 1, wherein said filling step further comprises:
filling said reservoir with paint to a depth less than 1/8th of an inch.
7. A method as defined in claim 1, wherein said filling step further comprises:

filling said reservoir with paint to a depth greater than 1/16th of an inch.

8. A package kit containing articles for painting using the posterior of an infant, said package kit containing:

a flat, flexible backing piece;

a protective cover folded into a compact size attached to said

5 backing piece;

a plurality of paint bottles attached to said backing piece;

a plurality of reservoirs attached to said backing piece;

a plurality of painting tools attached to said backing piece;

a plastic cover having a periphery, said plastic cover positioned

10 over said protective cover, plurality of paint bottles, plurality of reservoirs, and plurality of paint brushes, and attached around its peripheral edge to said backing piece.

9. A kit as defined in claim 8, further comprising:

background media attached to said backing piece and under said cover.

10. A kit as defined in claim 8, wherein said painting tools are paint brushes.

11. A kit as defined in claim 8, wherein said painting tools are poly-brushes.

12. A kit as defined in claim 8, wherein said painting tools are a combination of poly-brushes and paint brushes.

13. A kit as defined in claim 8, wherein said plurality of reservoirs comprise a plurality of plates.

14. A kit as defined in claim 13, wherein said plates are stacked for efficiency space usage.

15. A kit as defined in claim 8, wherein:

said backing piece is partitioned into two rows, each row having a left, center and right portions; and wherein:

5 said first row;

 said protective cover is positioned in the left portion of

 said plurality of paint bottles are positioned in said right

 portion of said first row;

 said plurality of reservoirs are positioned in said center of

 said second row;

10 said plurality of painting tools are positioned partially on

 in the left portion and partially in the right portion of said second row.

 16. A kit as defined in claim 15, further comprising:

 a third row; and

 a background media positioned in said third row.

 17. A kit as defined in claim 15, wherein said backing piece is

 rectangular.

A handwritten signature in black ink, appearing to read "R. D. H. 3". It is written in a cursive, flowing style with a prominent "R" at the beginning and a "3" at the end.
